## MATRIX ISOLATION GASKETS

---

### NON-METALLIC

### PRODUCT DATA SHEET

#### DESCRIPTION

Matrix CPG® is a superior performance biaxially orientated PTFE gasket material with a unique corrugation profile that is engineered to achieve low leakage at minimal load. The high and low density points across the sealing area allow varying loads to be applied radially but achieve a consistently low leak rate. This gasket material is ideal for glass lined, plastic and FRP flanges where high gasket stress is not possible.

#### TECH SPECS

Gasket Type: E, F  
Seal Element: PTFE  
Pressure Class: ANSI(150#-300#)  
F36 Compression: 30%  
F36 Recovery: 50%  
Density: 1.5 g/cc
