## PETROWRAP LT - LOW TEMPERATURE

### ANTI-CORROSION TAPE

#### PRODUCT DATA SHEET

**Description:** Petrolatum based with anti corrosion agents bonded to a specially woven fabric provides uniform thickness and strength. PetroWrap LT is engineered for low temperature applications in that it stays pliable in low temperatures.

**Use:** PetroWrap LT Anti Corrosion Tapes are cold applied over metal to provide long term corrosion protection to pipes, flanges, valves, hydraulic fittings, pier pilings, etc. PetroWrap LT can be used above ground, underground or underwater.

PetroWrap LT can be applied on already rusted surfaces or wire brushing can be done. Once applied, PetroWrap LT Tape is ready for service and provides many years of maintenance free protection from water, salt, alkalis, acids and caustics. PetroWrap LT AC Tape will not crack, peel or harden and is completely not toxic and non-polluting.

PetroWrap LT is not recommended where exposure to strong solvents is likely.

#### **Service**

**Temperatures:** -50° C. to 70° C.  
(-50° F. to 158° F)

#### **Application**

**Temperature:** -10° C. to 50° C.

**Colour:** Green/Brown.

**Thickness:** 1.15mm - 46mm
