METER GASKETS

ISOLATION GASKETS - WATER

PRODUCT DATA SHEET

Lamons ISOTEK offers sheet gasket technology for the water, potable water and wastewater markets.

L420 and L441 materials are economical solutions manufactured with a formulation of high quality fillers, premium aramid / inorganic fibers and a nitrile rubber binder. For potable water—NSF 61 applications the Matrix L100 is offered. Manufactured with high performance biaxially orientated PTFE gasket with the addition of a high quality silica filler system. All material can be spliced, as a 1PC gasket, for large diameter AWWA Flanged applications.

Gasket Type	Retainer-Seal	Pressure Class
E and F	L420, L441 or Matrix L100	ANSI(150#-300#)
